Technical Skills

- **Languages & Scripting:** Python, JavaScript (ES6+), TypeScript
- **Frontend Technologies:** HTML5, CSS3, React.js, Next.js (App Router, Server Actions), Tailwind CSS, Shadcn UI, Material UI, React Hook Form, Zod, Redux, Zustand
- **Backend Technologies:** Node.js, Express.js, Prisma, Supabase, Strapi
- **Databases:** PostgreSQL, MongoDB, pgvector (Supabase)
- **API Development & Data Handling:** RESTful API Development (Express.js, Next.js API Routes), Third-Party API Integration, TanStack Query
- **Authentication & Authorization:** JWT-based Authentication, Clerk, Supabase Auth, Strapi Auth
- **AI & LLM:** OpenAI API, Prompt Engineering, Semantic Search, Vector Embeddings
- **Version Control & Collaboration:** Git, GitHub
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), MVC Architecture
- **AI Tooling:** GitHub Copilot, Cursor, ChatGPT, Claude

Work Experience

Software Engineer | Oculon.AI, Mumbai Apr 2024 - Mar 2025

- Led end-to-end frontend development of the core product, owning the complete UI/UX design and implementation from scratch.
- Built the entire Dashboard and Settings Panel, handling complex state management with Redux and ensuring responsiveness across all devices and browsers.
- Developed a library of reusable React.js and Tailwind CSS components following DRY principles, improving codebase maintainability and reducing development time for new features.
- Integrated RESTful APIs and implemented CRUD operations, enabling smooth real-time data flow across the application.
- Optimized frontend performance, reducing product load time and improving responsiveness — directly impacting user experience.
- Collaborated with designers and backend engineers to align on design systems, API contracts, and UX goals throughout the product lifecycle.

Full Stack Developer Intern | Fynd, Mumbai Jul 2023 - Sep 2023

- Worked on frontend and backend tasks simulating real-world development workflows, including API integration and reusable component design.
- Contributed to mini-projects covering full-stack development practices across the team.

Education

B.Tech. in Electronics and Telecommunication Engineering Aug 2020 - Jul 2023
Vishwakarma Institute of Information Technology, Pune **CGPA: 8.47/10**

Diploma in Electronics and Telecommunication Engineering Aug 2017 - May 2020
Guru Gobind Singh Polytechnic, Nashik **Percentage: 91.47%**

Project Work

Social Media Platform (Connectly) [GitHub](#) | [Live](#) Jul 2025 – Present

Built a full-stack microblogging platform with real-time feeds, optimistic UI updates, and Clerk-based authentication. Used Next.js, Prisma, Supabase (PostgreSQL), TanStack Query, Zustand, Tailwind CSS, and Shadcn UI. Deployed on Vercel.

Full-Stack Project Management Tool (TaskFlow) [GitHub](#) | [Live](#) Mar 2025 – Apr 2025

Built a project management tool with board-based task organization, drag-and-drop reordering, and Clerk-based RBAC. Used Next.js Server Actions, Prisma, Supabase, Zustand, Tailwind CSS, and Shadcn UI.

Full-Stack E-Commerce Platform (ShopVista) [GitHub](#) | [Live](#) Jan 2025 – Feb 2025

Built an e-commerce platform with product search, cart, wishlist, and Stripe-powered checkout. Used React.js, Redux Toolkit, Tailwind CSS, and Strapi as a headless CMS.
